## 10kW Driving System

Motor	
Motor power	10KW
Rated voltage	65V AC
Battery voltage	96V DC
Rated frequency	152 Hz
Rated speed	4500 RPM
Speed range	0-6000 RPM
Rated current	115A
Spline	External splines, 22 tooth
Ambient temperature	-20℃~40℃
Protection grade	IP54
Insulation grade	H
Max.torque	120 N.M
Duty	S2-60MIN

Controller	
Rated voltage	72V / 96V DC
Working voltage range	65%~135% of rated voltage
Rated output current (60mins)	220A
Maximum output current	550A
Digital input	8
Analog input	2
Contactor drive	3
Sensor interface	Available
CAN Assembly	Available
Controller temperature range	-40~55℃
Controller protection grade	IP65

Gearbox	
Speed ratio	1.762/4.187
Weight	15kg
Max speed	5300r/min
Input spline	Involute: 22Z
Pressure angle	20
Modification coefficient	0.8
Pitch circle diameter	22
Lubrication oil type	75W/90 GL-4

*Driving System  
for Electric Vehicles*

*Three Phase AC Induction Motor
