

CHAdemo DC Fast Charging

Join the leading global fast charging protocol family

CHAdemo Association

January 2016

CHAdeMO members

- An international association with 340 members in the world, of which 60 from 20 countries in Europe

Locations of CHAdeMO Members

Note: This represents a selection of CHAdeMO members

Benefits of becoming CHAdeMO member

Access to the technological details of leading global fast charging protocol and participation in its development

Networking opportunities through member only workshops, meetings and conferences

Promotion of your fast charging activities through CHAdeMO newsletters, website, workshops and social media

Right to participate in e-mobility related joint trade fair stands of the association

Your logo in CHAdeMO's promotional materials

Authorized use of CHAdeMO logo on your corporate materials, website, and CHAdeMO-related products

Types of membership and their benefits

Creating the optimal fast charging standard compatible with all EVs and deploying the infrastructure in order to accelerate the realization of e-mobility.

Member logos include: CGH, HITACHI, Schneider Electric, ABB, LAFON, Fujikura, SEW, VSL, YAZAKI, CHARGE YOUR CAR, CIRCONTROL, IES, Jintkraft, efacec, andromeda, IKS, designLuerk, SIEMENS, ESP, bd, SAIJITHO ELECTRIC, Mazda, EVU, KIA, endesa, nrg, DEGGENDORF INSTITUTE OF TECHNOLOGY, Kawasaki, PSA PEUGEOT, SUZUKI, HYUNDAI, SUBARU, DAIHATSU, CANSTO, TRITIUM, TOYOTA, AKERWADE, 東京電力, HONDA, DELTA, MITSUBISHI, NISSAN.

CHAdeMO NEWSLETTER #4 10/2014

Powered logo

Member logos include: Fujikura, EV TRONIC, DBT, TRITIUM, CITROËN, NISSAN.

4. eCarTec highlight: Tritium and Takaoka Toko exhibiting

The European Dual-standard... able to see it at this year's eCarTec. The one... producer from Australia. Tritium will be showcasing its energy... while Japanese Takaoka Toko, a leading fast charger manufacturer in Japan shall present a prototype of a simultaneous CHAdeMO-CCS-charger.

Do not miss them: Tritium – Hall B4, Booth 510 (CHAdeMO's joint booth), TAKAOKA TOKO – Hall B4, Booth 315.

5. EU to adopt the Directive as planned

On 26 September, the European Parliament and the Council have officially adopted the Directive on the deployment of alternative fuels infrastructure (a.k.a. the CPT Directive). While the Directive makes it mandatory to use "a common plug all across the EU" from 2017 onwards it endorses the dual-standard
